

Modular Buildings Case Study

ANGLIAN WATER, GALLIFORD TRY

Hire, sale or individually designed purchase options available

PROJECT: Offices & Welfare Facilities

CLIENT: Anglian Water, Galliford Try

In partnership with Anglian Water, Galliford Try were awarded the contract to develop one of Europe's largest water treatment plant.

Their requirement was for individually designed, high quality, office and welfare facilities to compliment this prestigious contract. Under a strict delivery timescale, Pasuda manufactured a 14 bay office block incorporating toilet and canteen facilities and a 6 bay welfare unit with drying rooms, toilets, showers and a large commercial catering facility.

The whole project was completed within 6 weeks from order and handed over within the required timescale.
