

# Modular Buildings Case Study

## CADBURY SHEFFIELD

Hire, sale or individually designed purchase options available

**PROJECT:** New Reception

**CLIENT:** Cadbury

Cadburys large Sheffield factory turned to Pasuda to design a new reception facility following re-organisation of its operations.

The aesthetic quality of the building was paramount. Pasuda's design team took this on board to produce a contemporary building in excess of the clients expectations.

Incorporating a full height glazed shop frontage, large deep fascia and a full Graphics package, the building fits neatly within Cadburys reputation as a modern, leading U.K. company.
