

# Modular Buildings Case Study

## HOLMEWOOD CRICKET CLUB

Hire, sale or individually designed purchase options available

**PROJECT:** Cricket Pavillion & Community Building

**CLIENT:** Holmewood Cricket Club Chesterfield

Pasuda's expertise in design, construction and compliance of modular buildings was crucial to this project. From inception, numerous design changes were incorporated to satisfy the cricket club's requirements of a modern pavilion; flexible for both sporting and community use.

The buildings design facilitated the opportunity of external funding, which was fundamental to the whole project. Incorporating full changing facilities, shower rooms, toilets, catering facilities and community room, the building provides contemporary facilities for the whole community's use for many years to come.
